Re: Junior Technical Developer Position at The Jonah Group, Ltd. for Summer 2019

Dear Ms. Tina Mota,

I would like to thank you for the opportunity to present my resume as an application for a summer position at The Jonah Group as a Junior Technical Developer. My friend Vikram Sharma, Technical Developer, recommended that I contact you directly about this position. As Vikram can attest, my skills and personality would make me an excellent fit for The Jonah Group.

I am currently studying at George Brown College in the Computer Programmer Analyst Advanced Diploma program and have been on the Dean's Honours List since my first semester. Thus far, I have acquired knowledge in Java, C# and Python, as well as a few scripting languages. Through group projects and assignments, I have developed excellent time management, critical thinking and communication skills. During my years of working in a pharmacy, at both Findlay's Drugstore and Kassel's Pharmacy, I have learned the importance of working in a team to deliver excellent customer service and products. At Kassel's Pharmacy, I saw the opportunity to demonstrate initiative and independence on multiple occasions, which increased the accuracy of the pharmacy's inventory and reduced the number of unexplainable losses of narcotic and controlled drugs. Moreover, I gained valuable leadership and interpersonal skills during my undergraduate degree at the University of Waterloo as a volunteer for the Off Campus Community.

I strongly believe I would be a valuable asset to The Jonah Group, and I am looking forward to further my knowledge by working with your enthusiastic and dedicated team of developers. I would like to thank you, Ms. Mota, for your time and consideration, and I look forward to hearing from you. I can be reached by phone at (519) 616-1206 or by email at veronyque.lemieux@gmail.com.

Kind regards,

Veronyque Lemieux
