Re: Full-Time Technical Developer Position Starting May 2020

Dear Sir/Madam,

I would like to thank you for the opportunity to present my resume as an application for a full-time technical developer position starting in May 2020. I can assure that my skills and personality would make me an excellent fit for your company.

I am currently studying at George Brown College in the Computer Programmer Analyst Advanced Diploma program and have been on the Dean's Honours List since my first semester. Thus far, I have acquired knowledge in Java, C# and Python, as well as a few scripting languages. Through group projects and assignments, I have developed excellent time management, critical thinking and communication skills. During my years of working in a pharmacy, at both Findlay's Drugstore and Kassel's Pharmacy, I have learned the importance of working in a team to deliver excellent customer service and products. At Kassel's Pharmacy, I saw the opportunity to demonstrate initiative and independence on multiple occasions, which increased the accuracy of the pharmacy's inventory and reduced the number of unexplainable losses of narcotic and controlled drugs. Moreover, I gained valuable leadership and interpersonal skills during my undergraduate degree at the University of Waterloo as a volunteer for the Off Campus Community.

I strongly believe I would be a valuable asset, and I am looking forward to further my knowledge by working with your enthusiastic and dedicated team of developers. I would like to thank you, Sir/Madam, for your time and consideration, and I look forward to hearing from you. I can be reached by phone at (519) 616-1206 or by email at veronique.lemieux@gmail.com.

Kind regards,

Veronique Lemieux
